

impact statement (EIS) were developed using a collaborative planning process. The United States Forest Service (USFS) was the lead agency for preparing the EIS and LUPA. The BLM was a cooperating agency. The LUPA encompasses approximately 280,000 acres of public land administered by the BLM Nevada, located in Carson City, Douglas, Esmeralda, Lyon, and Mineral counties in Nevada and Alpine County, California. The decision area does not include private lands, State lands, tribal lands, or Federal lands not administered by the BLM. The LUPA/ROD will add goals, objectives, action, and best management practices specifically designed to conserve, enhance, and restore habitats to provide for the long-term viability of the Greater Sage-Grouse Bi-State Distinct Population Segment (BSSG). The LUPA provides direction at the land-use-plan level to include regulatory mechanisms for the management and conservation of BSSG habitats within the BLM Carson City and Battle Mountain Districts to support the BSSG population management objectives within the States of Nevada and California.

The proposed LUPA/final EIS was made available to the public on February 13, 2015 (80 FR 8081). Three valid protest letters were received and seven issues were identified. No inconsistencies were identified by the Offices of the Governor for the States of California or Nevada during the Governor's consistency review. The Director's Protest Report is available from the Carson City District's Web site at: [http://www.blm.gov/nv/st/en/fo/carson\\_city\\_field.html](http://www.blm.gov/nv/st/en/fo/carson_city_field.html).

The following changes to the Proposed Amendment are made final in the ROD/Approved Amendment as a result of protests raised during the protest process and additional agency discussions: Set a total anthropogenic disturbance of no more than 3 percent of the total BSSG habitat on Federal lands within the Bodie Mountain/Grant, Desert Creek/Fales, and White Mountains population management unit boundaries (PMU); and a total anthropogenic disturbance of no more than 1.5 percent of the total BSSG habitat on Federal lands within the Pine Nut Mountains PMU; tall structures, which could serve as predator perches, will not be authorized within 4 miles of an active or pending lek; designate right-of-way exclusion areas within BSSG habitat for new high-power (120kV) transmission line corridors, rights-of-way, facilities, or construction areas in habitat (outside of existing corridors); and clarify that connective areas will be maintained or enhanced.

The EIS analyzes three alternatives: Alternative A (no action), Alternative B (Modified Proposed Action), and Alternative C (conservation). The BLM Proposed Plan Amendment is the same as Alternative B with the language modified to be consistent with BLM planning language. The BLM Proposed Plan Amendment as described in the Final EIS was selected in the ROD, with some modifications and clarifications based on protests raised during the protest process and additional agency discussions. The ROD adopts the final EIS's goals and objections and the management actions to reach those goals and objections.

The ROD does not directly implement any specific action. Future actions will be consistent with the management direction in the approved LUPA and will be made through a future decision-making process, including appropriate environmental review. Examples of site-specific planning efforts for resource-use activities are special recreation permits and right-of-way grants.

### National Indian Gaming Commission

#### 2016 Final Fee Rate and Fingerprint Fees

**AGENCY:** National Indian Gaming Commission.

**ACTION:** Notice.

**SUMMARY:** Notice is hereby given, pursuant to 25 CFR 514.2, that the National Indian Gaming Commission has adopted its 2016 final annual fee rates of 0.00% for tier 1 and 0.062% (.00062) for tier 2, which remain the same as the 2016 preliminary fee rates. The tier 2 annual fee rate represents the lowest fee rate adopted by the Commission in the last five years. These rates shall apply to all assessable gross revenues from each gaming operation under the jurisdiction of the Commission. If a tribe has a certificate of self-regulation under 25 CFR part 518, the 2016 final fee rate on Class II revenues shall be 0.031% (.00031) which is one-half of the annual fee rate. The final fee rates being adopted here are effective June 1, 2016, and will remain in effect until new rates are adopted.

Pursuant to 25 CFR 514.16, the National Indian Gaming Commission has also adopted its fingerprint processing fees of \$21 per card effective June 1, 2016.
